**Subject: Power Regulatory Measures on Induction furnaces Consumers.**

As decided on 10.1.2011 in the Chamber of Director/D during the meeting with Induction Furnace Associations, Regulatory Measures on Induction furnace consumers availing open access facility are reschedule w.e.f. 12.1.2011 to 31-1-2011 as under:-

Considering the sever winter conditions in the region these consumers voluntarily offered not to use PSPCL power during 0800 hour to 2000 hour daily. These consumers will be allowed to use load upto the extent of 5% of their sanctioned contract demand from 0800 hour to 1800 hour without payment of PLEC. However, load allowed during 1800 hour to 2000 hour will be equal to eligible exemption without payment of PLEC.

Two weekly off days being imposed presently are hereby relaxed on this industry with effect from 12.1.11 onwards. These consumers are allowed to use their open access load from 2000 hour to 0800 hour next day.
